Critical Care Study Guide: Text and Review

Critical Care Study Guide: Text and Review

Critical care medicine is a dynamic and exciting arena where complex pathophysiologic states require extensive knowledge and up-to-date clinical information. An extensive knowledge of basic pathophysiology, as well as awareness of the appropriate diagnostic tests and treatments that are used to optimize care in the critically ill is essential. Since our first edition 7 years ago, new information crucial to the care and understanding of the critically ill patient has rapidly accumulated. Because this knowledge base crosses many different disciplines, a comprehensive multidisciplinary approach presenting the information is essential, similar to the multidisciplinary approach that is used to care for the critically ill patient. We have strived to provide this content in an easily digestible format that uses a variety of teaching tools to facilitate understanding of the presented concepts and to enhance information retention. To meet the demand to provide comprehensive and diverse education in order to understand the pathogenesis and optimum care of a variety of critical illnesses, we have substantially revised the prior topics in the first edition with updated information. We have also markedly expanded the number of topics covered to include acute lung injury and the acute respiratory distress syndrome, an expanded discussion of the physiology and operation of mechanical ventilation, obstetrical care in the ICU, neurosurgical emergencies, acute coronary syndromes, cardiac arrhythmias, role of whole body rehabilitation in the ICU, ethical conduct of human research in the ICU, and nursing care of the ICU patient.

From reader reviews:

Bessie Morris:

Nowadays reading books be than want or need but also become a life style. This reading addiction give you lot of advantages. The benefits you got of course the knowledge the actual information inside the book that will improve your knowledge and information. The data you get based on what kind of book you read, if you want send more knowledge just go with training books but if you want really feel happy read one together with theme for entertaining including comic or novel. Often the Critical Care Study Guide: Text and Review is kind of guide which is giving the reader unpredictable experience.

Miriam Ellis:

Exactly why? Because this Critical Care Study Guide: Text and Review is an unordinary book that the inside of the guide waiting for you to snap it but latter it will distress you with the secret this inside. Reading this book alongside it was fantastic author who all write the book in such awesome way makes the content inside easier to understand, entertaining way but still convey the meaning entirely. So , it is good for you because of not hesitating having this nowadays or you going to regret it. This amazing book will give you a lot of positive aspects than the other book get such as help improving your ability and your critical thinking approach. So , still want to postpone having that book? If I have been you I will go to the reserve store hurriedly.

Gerald Rountree:

Critical Care Study Guide: Text and Review can be one of your nice books that are good idea. Most of us recommend that straight away because this reserve has good vocabulary that can increase your knowledge in vocab, easy to understand, bit entertaining but delivering the information. The writer giving his/her effort to set every word into satisfaction arrangement in writing Critical Care Study Guide: Text and Review although doesn't forget the main point, giving the reader the hottest as well as based confirm resource facts that maybe you can be certainly one of it. This great information can certainly drawn you into brand new stage of crucial considering.

Faye Berg:

That guide can make you to feel relax. This specific book Critical Care Study Guide: Text and Review was colourful and of course has pictures on there. As we know that book Critical Care Study Guide: Text and Review has many kinds or type. Start from kids until youngsters. For example Naruto or Private investigator Conan you can read and think you are the character on there. Therefore , not at all of book tend to be make you bored, any it makes you feel happy, fun and loosen up. Try to choose the best book for you personally and try to like reading that will.
