Let's Review: Biology, The Living Environment (Let's Review Series)

Gregory Scott Hunter

Unit Two focuses on specific biological concepts, including cell function and structure, the chemistry of living organisms, genetic continuity, the interdependence of living things, the human impact on ecosystems, and several other pertinent topics

Question sets are included in each section of the book and are accompanied by explanations of answers and wrong choices. Two recent Regents exams are also included with all questions answered. The book also features teachers' guidelines for developing New York State standards-based learning units.
