## The Changing Face of Management in China (Working in Asia)

China is one of the fastest developing emerging economies in the world today. The country has a huge influence on a global level, both politically and economically. Despite this, very few books cover both the full range of management functions, and the key issues facing managers in this unique business environment.

*The Changing Face of Management in China* explores the key challenges facing businesses and managers in China, across management functions, as well as across a range of sectors and organization types. Written by prominent scholars with direct experience in this market, this book adds to the existing body of knowledge by examining a range of areas of Chinese management in the context of local political, economic and social traditions, and the global economy.

Part of the successful *Working in Asia* series, this book includes case studies that allow the voices of local managers to be heard, as well as extensive bibliographies pointing students and researchers to the most up-to-date sources of information in this important area.
