Saul Leiter: Early Black and White

Saul Leiter: Early Black and White

The distinctive iconography of Saul Leiter's early black-and-white photographs stems from his profound response to the dynamic street life of New York City in the late 1940s and 50s. While this technique borrowed aspects of the photo-documentary, Leiter's imagery was more shaped by his highly individual reactions to the people and places he encountered. Like a Magic Realist with a camera, Leiter absorbed the mystery of the city and poignant human experiences. Together with *Early Color*, also published by Steidl, the two volumes comprising *Early Black and White* show the impressive range of Leiter's early photography.
