Theorizing Society in a Global Context (Europe in a Global Context) Anne Sophie Krossa

This book tackles the important task of readdressing and updating the concept of "society," developing a new theory of society for our times. Taking characteristic elements of our times into account, the book explores society in the context of both globalization and conflict theory and uses Europe as a test case due to its unique position between the nation state and society and between the global and the local. Rejuvenating the concept of society and advancing an original and enhanced understanding of society today, this book will appeal to scholars in Sociology, Politics, Social Theory and European Studies.
