Monte Carlo Simulation with Applications to Finance (Chapman and Hall/CRC Financial Mathematics Series)

Hui Wang

Monte Carlo Simulation with Applications to Finance (Chapman and Hall/CRC Financial Mathematics Series) Hui Wang

Developed from the author's course on Monte Carlo simulation at Brown University, **Monte Carlo Simulation with Applications to Finance** provides a self-contained introduction to Monte Carlo methods in financial engineering. It is suitable for advanced undergraduate and graduate students taking a one-semester course or for practitioners in the financial industry.

The author first presents the necessary mathematical tools for simulation, arbitrary free option pricing, and the basic implementation of Monte Carlo schemes. He then describes variance reduction techniques, including control variates, stratification, conditioning, importance sampling, and cross-entropy. The text concludes with stochastic calculus and the simulation of diffusion processes.

Only requiring some familiarity with probability and statistics, the book keeps much of the mathematics at an informal level and avoids technical measure-theoretic jargon to provide a practical understanding of the basics. It includes a large number of examples as well as MATLAB® coding exercises that are designed in a progressive manner so that no prior experience with MATLAB is needed.

From reader reviews:

Michael Wickham:

What do you think of book? It is just for students since they are still students or this for all people in the world, what best subject for that? Just you can be answered for that question above. Every person has diverse personality and hobby for each and every other. Don't to be forced someone or something that they don't want do that. You must know how great in addition to important the book Monte Carlo Simulation with Applications to Finance (Chapman and Hall/CRC Financial Mathematics Series). All type of book can you see on many solutions. You can look for the internet options or other social media.

Charles Killough:

Reading can called brain hangout, why? Because while you are reading a book especially book entitled Monte Carlo Simulation with Applications to Finance (Chapman and Hall/CRC Financial Mathematics Series) your thoughts will drift away trough every dimension, wandering in every single aspect that maybe unfamiliar for but surely will become your mind friends. Imaging just about every word written in a publication then become one web form conclusion and explanation in which maybe you never get before. The Monte Carlo Simulation with Applications to Finance (Chapman and Hall/CRC Financial Mathematics Series) giving you an additional experience more than blown away your head but also giving you useful info for your better life with this era. So now let us explain to you the relaxing pattern is your body and mind will likely be pleased when you are finished studying it, like winning a casino game. Do you want to try this extraordinary shelling out spare time activity?

David Boggs:

Many people spending their time frame by playing outside having friends, fun activity along with family or just watching TV the entire day. You can have new activity to spend your whole day by looking at a book. Ugh, ya think reading a book really can hard because you have to use the book everywhere? It okay you can have the e-book, bringing everywhere you want in your Mobile phone. Like Monte Carlo Simulation with Applications to Finance (Chapman and Hall/CRC Financial Mathematics Series) which is obtaining the e-book version. So , why not try out this book? Let's see.

Lloyd Schuler:

A lot of publication has printed but it takes a different approach. You can get it by internet on social media. You can choose the most effective book for you, science, amusing, novel, or whatever simply by searching from it. It is referred to as of book Monte Carlo Simulation with Applications to Finance (Chapman and Hall/CRC Financial Mathematics Series). You can include your knowledge by it. Without departing the printed book, it could possibly add your knowledge and make a person happier to read. It is most important that, you must aware about reserve. It can bring you from one location to other place.
