Miva Script is a Web application tool that allows developers to create complex Web applications with little or no programming experience. It provides the power of CGI, with easy programming comparable to HTML. There is no easier way to build sophisticated cross-platform server side applications. This book explains how.

With the information in The Official Miva Web-Scripting Book, readers will discover the elements of Miva Script along with examples of how each tag and function is used in different circumstances. The reference section of the book contains descriptions of all Miva Script tags and system functions.

This book not only teaches the beginner how to use Miva Script, it can also help the expert exploit the power of the language. Miva Script is easy to learn; it's powerful; it's flexible; and it's fast. It's the full-featured language of the Internet.
