Computational Intelligence. Theory and Applications: International Conference, 5th Fuzzy Days, Dortmund, Germany, April 28-30, 1997 Proceedings (Lecture Notes in Computer Science)
This book constitutes the refereed proceedings of the International Conference on Computational Intelligence held in Dortmund, Germany, as the 5th Fuzzy Days, in April 1997.
Besides three invited contributions, the book presents 53 revised full papers selected from a total of 130 submissions. Also included are 35 posters documenting a broad scope of applications of computational intelligence techniques in a variety of areas. The volume addresses all current issues in computational intelligence, e.g. fuzzy logic, fuzzy control, neural networks, evolutionary algorithms, genetic programming, neuro-fuzzy systems, adaptation and learning, machine learning, etc.

Doris Rice:

As a university student exactly feel bored in order to reading. If their teacher questioned them to go to the library or to make summary for some e-book, they are complained. Just minor students that has reading's heart and soul or real their hobby. They just do what the teacher want, like asked to go to the library. They go to right now there but nothing reading critically. Any students feel that reading through is not important, boring along with can't see colorful photographs on there. Yeah, it is to get complicated. Book is very important to suit your needs. As we know that on this era, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore , this Computational Intelligence. Theory and Applications: International Conference, 5th Fuzzy Days, Dortmund, Germany, April 28-30, 1997 Proceedings (Lecture Notes in Computer Science) can make you truly feel more interested to read.
