## **God and Money: A Theology of Money in a Globalizing World** Nimi Wariboko PhD

Making a case for a denationalized global currency as an alternative to the dollar, euro, and yen as the world vehicular and reserve currencies, *God and Money* explores the significance and theological-ethical implications of money as a social relation in the light of the dynamic relations of the triune God. Wariboko deftly analyzes the dynamics at work in the global monetary system and argues that the monarchical-currency structure of the dollar, euro, and yen may be moving toward a trinitarian structure of a democratic world currency.
