Science Stories: Using Case Studies to Teach Critical Thinking (PB301X) Clyde Freeman Herreid, Nancy A. Schiller, Ky F. Herreid

Stories put "flesh and blood" on the scientific method and provide an inside look at scientists in action. Case studies deepen scientific understanding, sharpen critical-thinking skills, and help students see how science relates to their lives. In *Science Stories*, Clyde Freeman Herreid, Nancy A. Schiller, and Ky F. Herreid have organized case studies into categories such as historical cases, science and the media, and ethics and the scientific process. Each case study comprises a story, classroom discussion questions, teaching notes and background information, objectives, and common misconceptions about the topic, as well as helpful references. College-level educators and high school teachers will find that this compilation of case studies will allow students to make connections between the classroom and everyday life. *Science Stories* is sure to make science engaging and enlightening for both students and teachers.
