Spanish literature has given the world the figures of Don Quixote and Don Juan, and is responsible for the "invention" of the novel in the 16th century. The medieval period produced literature in Castilian, Catalan, Galician, Latin, Arabic, and Hebrew, and today there is a flourishing literature in Catalan, Galician, and Basque as well as in Castilian--the language that has become known as "Spanish." Moreover, a multilayered history of exile has produced a transnational literary output, while writers in Spain have engaged with European cultural trends. This *Very Short Introduction* explores this rich literary history, which resonates with contemporary debates on transnationalism and cultural diversity. The book sheds much light on the ways in which Spanish literature has been read, in and outside Spain, explaining misconceptions, outlining the insights of recent scholarship, and suggesting new readings. It highlights the precocious modernity of much early modern Spanish literature, and shows how the gap between modern ideas and social reality stimulated creative literary responses in subsequent periods and how contemporary writers have adjusted to Spain's recent accelerated modernization.
