First Aid for the Basic Sciences, General Principles, Second Edition (First Aid Series)

Tao Le, Kendall Krause

First Aid for the Basic Sciences, General Principles, Second Edition (First Aid Series) Tao Le, Kendall Krause

The essential companion for your first two years of medical school

First Aid for the Basic Sciences: General Principles, 2e provides you with a solid understanding of the basic science principles with which all medical students must be familiar. The second edition has been completely revised to feature a more student-friendly and approachable text, an updated high-yield rapid review section, new images, and more.

- Delivers comprehensive single-source coverage of the entire first year of medical school
- Includes important background material most other reviews leave out
- Covers the high-yield topics and facts tested on the USMLE
- Offers full-color images, learning aids, tables, and concise text to streamline your study and help you excel in coursework and on the USMLE
- Provides a framework for understanding anatomy and histology, embryology, behavioral science, biochemistry, microbiology, immunology, pathology, and pharmacology
- Mirrors the table of content of First Aid for the USMLE Step 1 to facilitate study
- Written by students who aced the USMLE and reviewed by top faculty

From reader reviews:

Erma Ward:

What do you regarding book? It is not important together with you? Or just adding material when you want something to explain what you problem? How about your extra time? Or are you busy particular person? If you don't have spare time to try and do others business, it is gives you the sense of being bored faster. And you have extra time? What did you do? Every individual has many questions above. They need to answer that question since just their can do which. It said that about publication. Book is familiar in each person. Yes, it is suitable. Because start from on guardería until university need this First Aid for the Basic Sciences, General Principles, Second Edition (First Aid Series) to read.

Deborah Rost:

Now a day people who Living in the era where everything reachable by match the internet and the resources included can be true or not call for people to be aware of each information they get. How a lot more to be smart in obtaining any information nowadays? Of course the answer then is reading a book. Examining a book can help folks out of this uncertainty Information especially this First Aid for the Basic Sciences, General Principles, Second Edition (First Aid Series) book because this book offers you rich information and knowledge. Of course the details in this book hundred percent guarantees there is no doubt in it you probably know this.

Robert Knight:

Nowadays reading books are more than want or need but also turn into a life style. This reading habit give you lot of advantages. Associate programs you got of course the knowledge the actual information inside the book in which improve your knowledge and information. The details you get based on what kind of guide you read, if you want get more knowledge just go with training books but if you want really feel happy read one along with theme for entertaining including comic or novel. The First Aid for the Basic Sciences, General Principles, Second Edition (First Aid Series) is kind of reserve which is giving the reader capricious experience.

Dorothy Cropper:

In this period of time globalization it is important to someone to get information. The information will make professionals understand the condition of the world. The healthiness of the world makes the information simpler to share. You can find a lot of personal references to get information example: internet, magazine, book, and soon. You will observe that now, a lot of publisher which print many kinds of book. The book that recommended for your requirements is First Aid for the Basic Sciences, General Principles, Second Edition (First Aid Series) this guide consist a lot of the information with the condition of this world now. This book was represented how do the world has grown up. The dialect styles that writer value to explain it is easy to understand. The actual writer made some analysis when he makes this book. Honestly, that is why this book

appropriate all of you.
