**Optimization Modeling with Spreadsheets** Kenneth R. Baker

**An accessible introduction to optimization analysis using spreadsheets**

Updated and revised, *Optimization Modeling with Spreadsheets, Third Edition* emphasizes model building skills in optimization analysis. By emphasizing both spreadsheet modeling and optimization tools in the freely available Microsoft® Office Excel® Solver, the book illustrates how to find solutions to real-world optimization problems without needing additional specialized software.

The *Third Edition* includes many practical applications of optimization models as well as a systematic framework that illuminates the common structures found in many successful models. With focused coverage on linear programming, nonlinear programming, integer programming, and heuristic programming, *Optimization Modeling with Spreadsheets, Third Edition* features:

- An emphasis on model building using Excel Solver as well as appendices with additional instructions on more advanced packages such as Analytic Solver Platform and OpenSolver
- Additional space devoted to formulation principles and model building as opposed to algorithms
- New end-of-chapter homework exercises specifically for novice model builders
- Presentation of the Sensitivity Toolkit for sensitivity analysis with Excel Solver
- Classification of problem types to help readers see the broader possibilities for application
- Specific chapters devoted to network models and data envelopment analysis
- A companion website with interactive spreadsheets and supplementary homework exercises for additional practice

*Optimization Modeling with Spreadsheets, Third Edition* is an excellent textbook for upper-undergraduate and graduate-level courses that include deterministic models, optimization, spreadsheet modeling, quantitative methods, engineering management, engineering modeling, operations research, and management science. The book is an ideal reference for readers wishing to advance their knowledge of Excel and modeling and is also a useful guide for MBA students and modeling practitioners in business and non-profit sectors interested in spreadsheet optimization.

### **From reader reviews:**

#### **Douglas Stevens:**

The knowledge that you get from Optimization Modeling with Spreadsheets may be the more deep you digging the information that hide inside words the more you get serious about reading it. It doesn't mean that this book is hard to be aware of but Optimization Modeling with Spreadsheets giving you thrill feeling of reading. The article author conveys their point in specific way that can be understood by simply anyone who read it because the author of this publication is well-known enough. This kind of book also makes your own vocabulary increase well. So it is easy to understand then can go along, both in printed or e-book style are available. We highly recommend you for having this particular Optimization Modeling with Spreadsheets instantly.

#### **Daniel Starkey:**

People live in this new day of lifestyle always make an effort to and must have the time or they will get lots of stress from both day to day life and work. So , once we ask do people have spare time, we will say absolutely indeed. People is human not just a robot. Then we inquire again, what kind of activity do you possess when the spare time coming to you of course your answer can unlimited right. Then do you ever try this one, reading ebooks. It can be your alternative with spending your spare time, the particular book you have read will be Optimization Modeling with Spreadsheets.

#### **Annmarie Windham:**

This Optimization Modeling with Spreadsheets is fresh way for you who has intense curiosity to look for some information because it relief your hunger of information. Getting deeper you on it getting knowledge more you know or perhaps you who still having little bit of digest in reading this Optimization Modeling with Spreadsheets can be the light food for you personally because the information inside this particular book is easy to get by means of anyone. These books build itself in the form that is reachable by anyone, yeah I mean in the e-book form. People who think that in book form make them feel sleepy even dizzy this book is the answer. So there is not any in reading a book especially this one. You can find actually looking for. It should be here for a person. So , don't miss the item! Just read this e-book variety for your better life as well as knowledge.

#### **David Moore:**

Reading a guide make you to get more knowledge from this. You can take knowledge and information from your book. Book is composed or printed or illustrated from each source which filled update of news. Within this modern era like today, many ways to get information are available for you. From media social like newspaper, magazines, science e-book, encyclopedia, reference book, novel and comic. You can add your understanding by that book. Are you ready to spend your spare time to spread out your book? Or just in search of the Optimization Modeling with Spreadsheets when you required it?
