## **Frank Zappa: The Biography** Barry Miles

Barry Miles knew Frank Zappa intimately. His biography follows Zappa from his sickly Italian-American childhood in the 1940s - when his father used DDT to clean the kitchen - to his death from cancer in 1993. Zappa's initial desire was to be a classical composer, but he soon realized that this ambition was more likely to lead to starvation than stardom. Instead, he decided to join a band that played music people actually want to listen to and in the mid 1960s he became the leader of a group called 'The Mothers of Invention' who went on to be one of the most internationally famous and influential rock groups of all time. In **Frank Zappa Miles** traces this rollercoaster career and has produced an authoritative and hugely enjoyable portrait of a singular man - and his music.
