Medical Nutrition Therapy: A Case Study Approach Marcia Nelms, Sara Long Roth, Karen Lacey

This casebook is composed of 32 realistic case studies that help prepare students for their future careers. They "solve the case" by using the information provided--such as hospital admission data, laboratory reports, and physician's narrative. The case is followed by a series of questions organized around the nutrition care process that focus on pathophysiology, assessment, clinical, nutritional, and behavioral outcomes, interventions, and appropriate follow-up for the patient.
