## Molecular Diagnostics and Treatment of Pancreatic Cancer: Systems and Network Biology Approaches Asfar Azmi

*Molecular Diagnostics and Treatment of Pancreatic Cancer* describes the different emerging applications of systems biology and how it is shaping modern pancreatic cancer research. This book begins by introducing the current state of the art knowledge, trends in diagnostics, progress in disease model systems as well as new treatment and palliative care strategies in pancreatic cancer. Specific sections are dedicated to enlighten the readers to newer discoveries that have emerged from gene expression profiling, proteomics, metabolomics and systems level analyses of pancreatic cancer datasets. First of a kind and novel network strategies to understand oncogenic Kras signaling in pancreatic tumors are presented. The attempts to computationally model and prioritize microRNAs that cause pancreatic cancer resistance are also highlighted.

Addressing this important area, *Molecular Diagnostics and Treatment of Pancreatic Cancer* provides insights into important network evaluation methodologies related to pancreatic cancer related microRNAs targetome. There are dedicated chapters on critical aspects of the evolving yet controversial field of pancreatic cancer stem cells. The work concludes by discussing the applications of network sciences in pancreatic cancer drug discovery and clinical trial design.

- Encompasses discussion of innovative tools including expression signatures in cell lines, 3D models, animal xenograft models, primary models and patient derived samples, aiding subversion of traditional biology paradigms, and enhancing comprehension across conventional length and temporal scales
- Coverage includes novel applications in targeted drugs, polypharmacology, network pharmacology and other related drug development arenas - helping researchers in pancreatic cancer drug discovery
- Summarizes many relevant computational and clinical references from fast-evolving literature
- Comprehensive glossary helps newer readers understand technical terms and specialized nomenclature

### **From reader reviews:**

#### **Cindy Grant:**

Nowadays reading books are more than want or need but also be a life style. This reading routine give you lot of advantages. Associate programs you got of course the knowledge the actual information inside the book in which improve your knowledge and information. The knowledge you get based on what kind of publication you read, if you want drive more knowledge just go with training books but if you want truly feel happy read one together with theme for entertaining including comic or novel. The actual Molecular Diagnostics and Treatment of Pancreatic Cancer: Systems and Network Biology Approaches is kind of book which is giving the reader unstable experience.

#### **Louis Clark:**

This book untitled Molecular Diagnostics and Treatment of Pancreatic Cancer: Systems and Network Biology Approaches to be one of several books that will best seller in this year, that's because when you read this publication you can get a lot of benefit in it. You will easily to buy this particular book in the book retail store or you can order it by means of online. The publisher in this book sells the e-book too. It makes you more easily to read this book, because you can read this book in your Mobile phone. So there is no reason for your requirements to past this reserve from your list.

#### **Daniel Young:**

Why? Because this Molecular Diagnostics and Treatment of Pancreatic Cancer: Systems and Network Biology Approaches is an unordinary book that the inside of the guide waiting for you to snap this but latter it will shock you with the secret the item inside. Reading this book adjacent to it was fantastic author who write the book in such remarkable way makes the content interior easier to understand, entertaining approach but still convey the meaning totally. So , it is good for you because of not hesitating having this any longer or you going to regret it. This amazing book will give you a lot of gains than the other book have got such as help improving your proficiency and your critical thinking means. So , still want to postpone having that book? If I ended up you I will go to the reserve store hurriedly.

#### **Jose Hackler:**

Reading a book make you to get more knowledge from the jawhorse. You can take knowledge and information from your book. Book is composed or printed or created from each source this filled update of news. With this modern era like right now, many ways to get information are available for a person. From media social just like newspaper, magazines, science reserve, encyclopedia, reference book, book and comic. You can add your knowledge by that book. Do you want to spend your spare time to open your book? Or just trying to find the Molecular Diagnostics and Treatment of Pancreatic Cancer: Systems and Network Biology Approaches when you essential it?
